

MAYA and the Secret World of Agoda

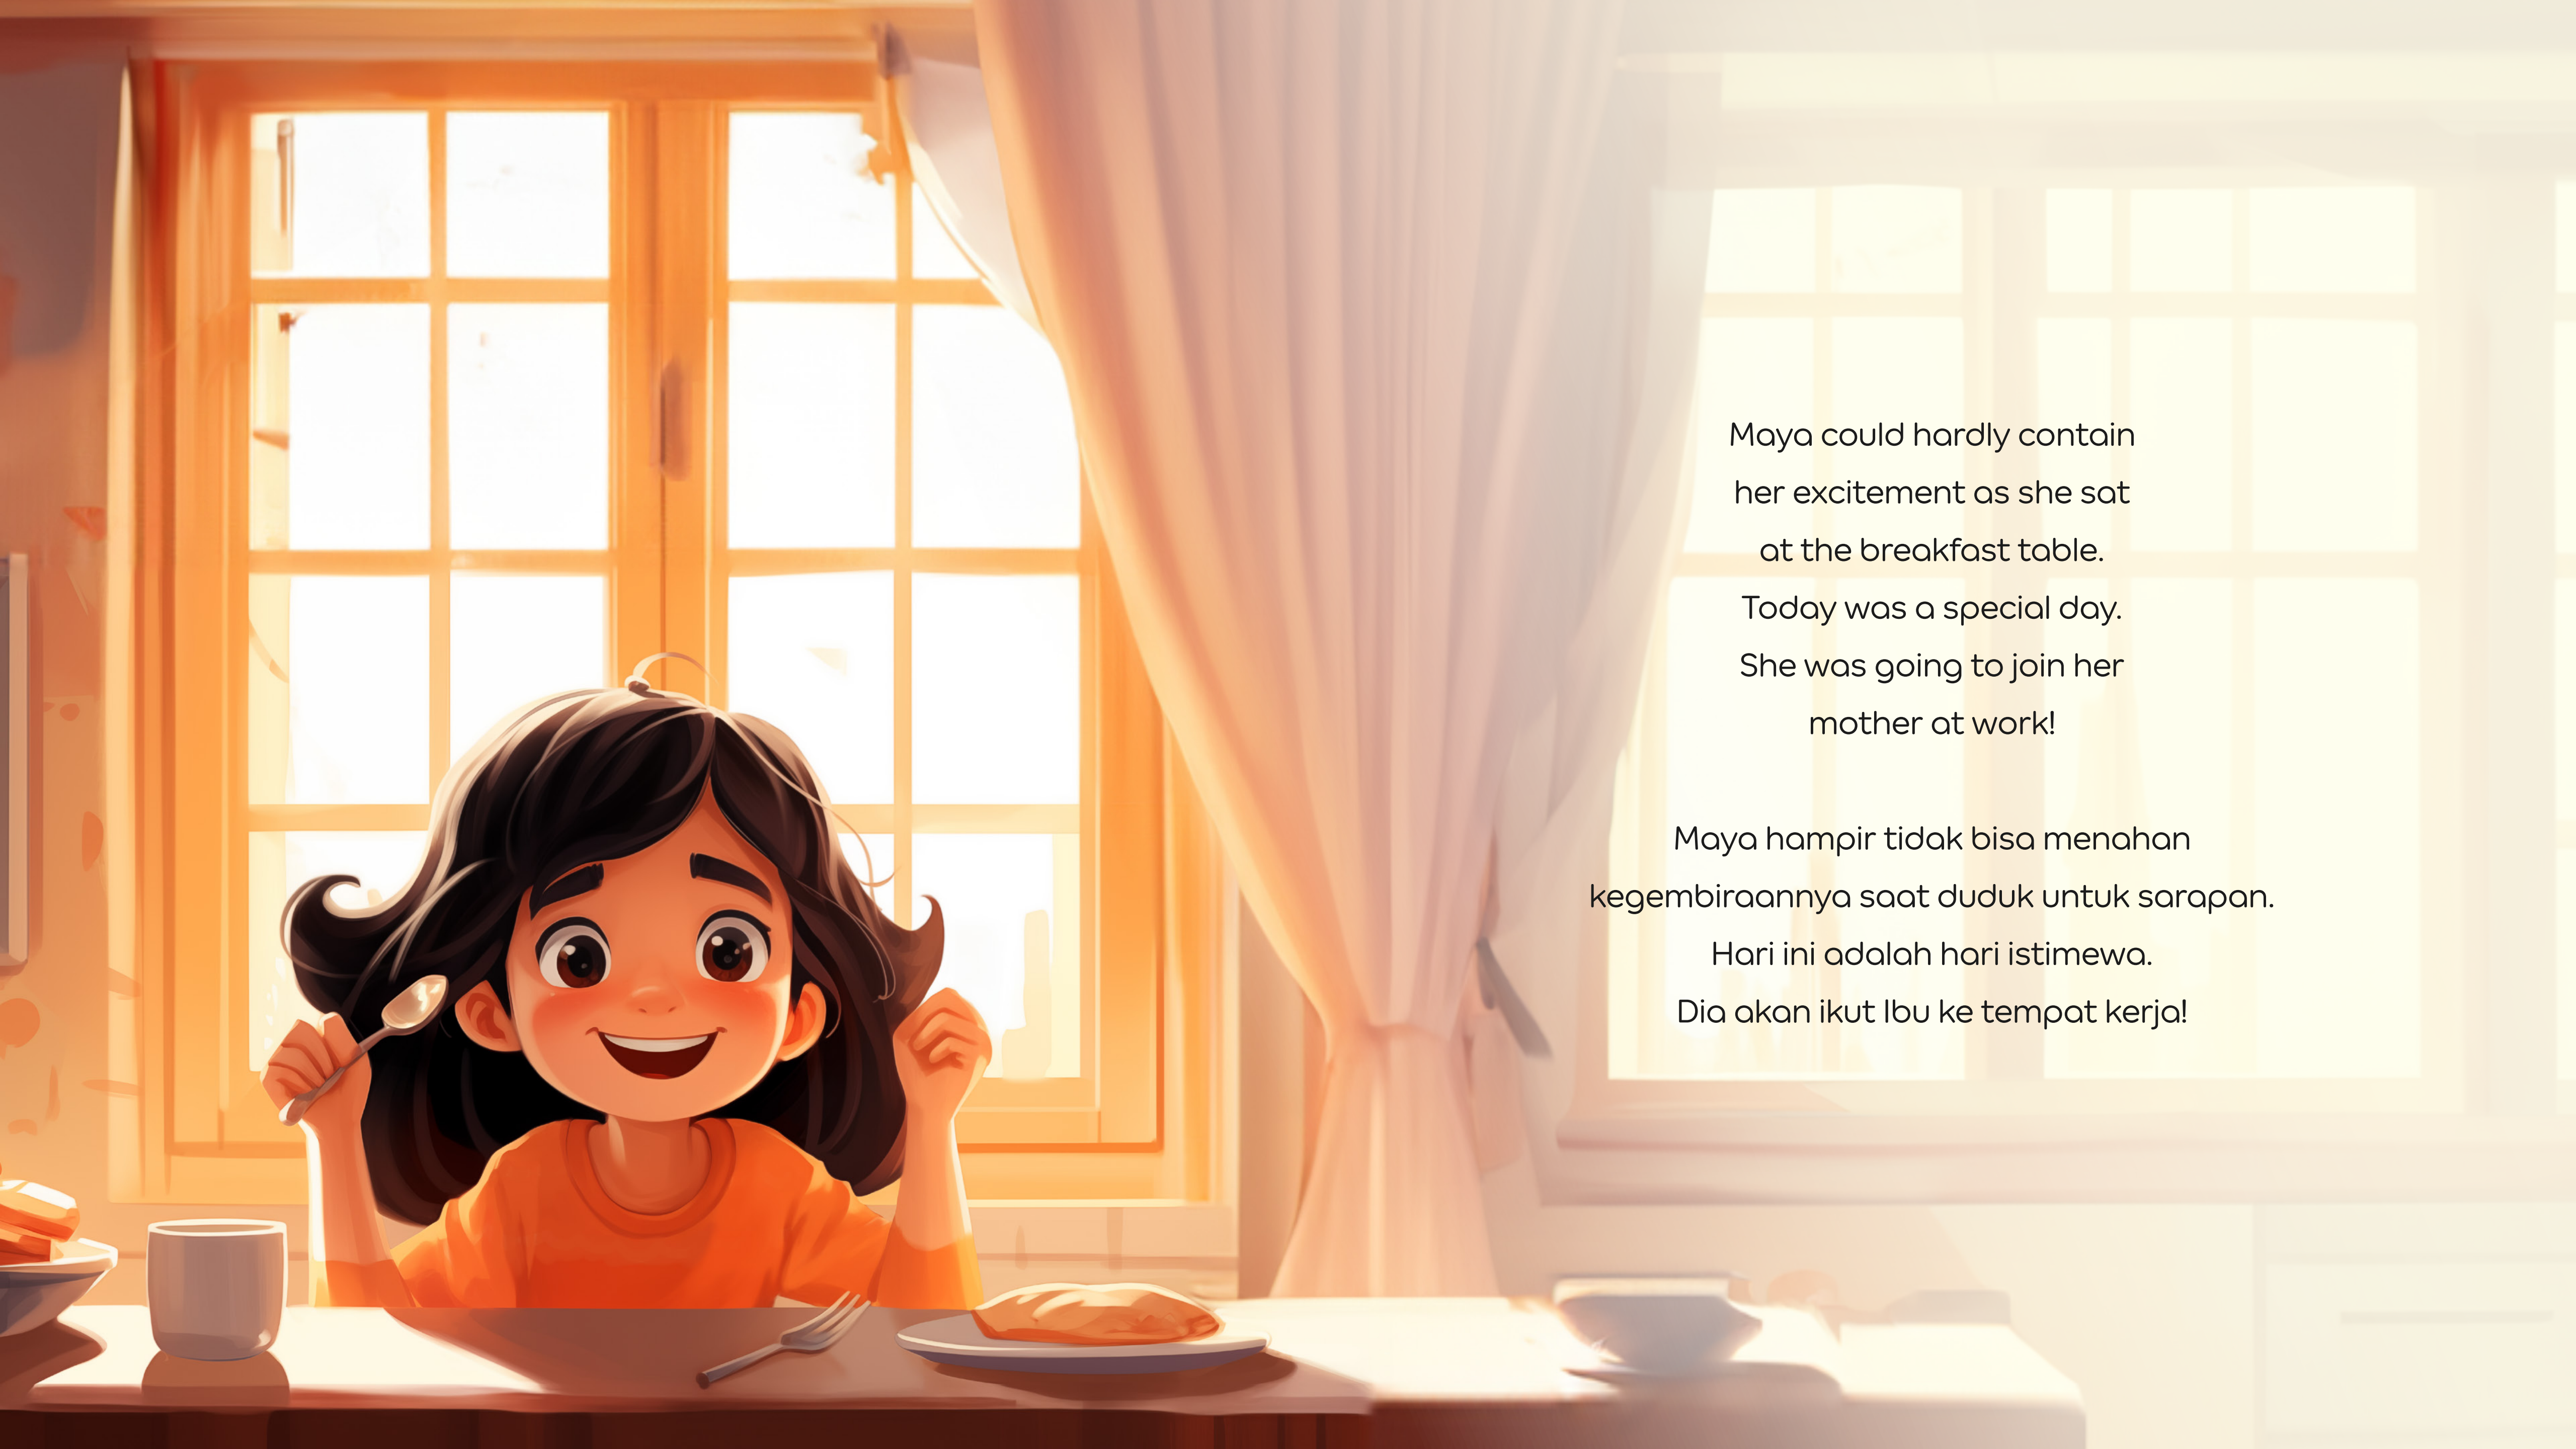

MAYA and the Secret World of Agoda

By AI (and a little bit of human touch)

The content of this book was created and translated using OpenAI's GPT-3.5, under the supervision of Agoda's legal, marketing, tech, and translation teams. The visuals were generated using Midjourney v5 and further perfected by Agoda's Brand Design team. This children's book is not just a story, but a showcase of Agoda's passion for tech and innovation. Above all, it's an ode to life at Agoda and a celebration of the thousands of talented Agodans who work tirelessly day in and day out to help travelers see the world for less.

this book belongs to

Maya could hardly contain
her excitement as she sat
at the breakfast table.
Today was a special day.
She was going to join her
mother at work!

Maya hampir tidak bisa menahan
kegembiraannya saat duduk untuk sarapan.
Hari ini adalah hari istimewa.
Dia akan ikut Ibu ke tempat kerja!

Maya and her mom hopped
into a colorful tuktuk.
The wind whizzed through her hair
as they zipped through
the bustling streets of Bangkok
towards Agoda's office.

Maya dan Ibu naik ke tuktuk
yang berwarna-warni.
Angin bertiup menerpa rambutnya
saat mereka meluncur melalui
jalan Bangkok yang ramai
menuju kantor Agoda.

Maya entered her mom's office,
and her eyes widened at the sight of
countless computer screens.

"Wow!" she exclaimed.

Wait, what was that?

Did Maya see some sort of
green animal crawl over the screen?
She must have imagined it, she thought.

Maya masuk ke kantor ibunya,
dan matanya melebar melihat
layar komputer berjajar.

"Wow!" dia berseru.

Tunggu, apa itu?

Apakah Maya melihat
hewan hijau merayap di atas layar?
Ini pasti cuma bayangan saja, pikirnya.

Maya discovered meeting
rooms that looked like different
tourist destinations.

"This one's like a beach!"
she giggled.

Maya menemukan ruang rapat yang didesain laksana
berbagai destinasi liburan yang berbeda.

"Ini seperti pantai!" dia tertawa.

Back at Mom's desk, Mom explained A/B testing, something she was doing right now. "Imagine if most people prefer chocolate ice cream," Mom said. "That tells us we need to make more chocolate because it's everyone's favorite."

Kembali ke meja Ibu, Ibu menjelaskan tentang uji A/B, sesuatu yang sedang dilakukan Ibu saat ini. "Bayangkan jika kebanyakan orang lebih suka es krim cokelat," kata ibu. "Ini artinya, kita tahu bahwa kita perlu membuat lebih banyak es krim cokelat karena ini rasa favorit semua orang."

On their way to lunch,
they passed a server room,
and it seemed to Maya that the servers
stretched all the way to the horizon.
Maya asked, "What are these for, Mom?"
Mom explained, "They make sure people
all around the world can book
their holiday at the same time, like magic!"

Saat pergi makan siang,
mereka melewati ruang server, dan bagi Maya,
server-server itu tampak terbentang sampai ke cakrawala.
Maya bertanya, "Ini untuk apa, Mama?"
Ibu menjelaskan, "Mereka memastikan
semua orang di seluruh dunia
dapat memesan liburan pada saat yang sama,
seperti sihir!"

Mom and Maya sat at lunch with people from different cultures and origins. Maya learned about diversity at Agoda, how everyone brought their unique experiences and ideas.

Ibu dan Maya duduk makan siang dengan orang-orang dari beragam asal-usul dan budaya. Maya belajar tentang keragaman di Agoda, bagaimana semua orang membawa pengalaman dan gagasan unik mereka.

On the way back from lunch, all of a sudden,
red lights flashed, and an alarm sounded.

There was a bug! In the war room,
people worked closely together,
hearts racing, to fight the unexpected intruder.

Teamwork saved the day.

Saat mereka kembali dari makan siang,
tiba-tiba lampu merah berkedip.

Suara alarm menggema.

Ada bug! Di ruang perang,
orang-orang bekerja sama dengan erat untuk
melawan penyusup yang tak terduga
dengan jantung berdegup kencang.

Kerja sama tim menyelesaikan segala masalah.

Maya watched her mom code
when they returned to her desk.
Maya imagined that with each line of code,
they defeated bugs, dark wizards,
and ugly trolls in a magical world.

Maya menyaksikan Ibu melakukan pemrograman
saat mereka kembali ke meja ibunya.
Maya membayangkan bahwa dengan setiap baris kode,
mereka mengalahkan bug,
penyihir ilmu hitam,
dan troll jelek dalam dunia sihir.

On the ride back home, Maya said,

"Wow, your work is really exciting,

Mom! Is every day like this?"

Mom laughed and replied, "Today was relatively calm.

It's always exciting at Agoda, but more importantly,

I learn something new every day."

Dalam perjalanan pulang, Maya berkata,

"Wow, pekerjaan Mama benar-benar menarik,

Mama! Apakah setiap hari seperti ini?"

Ibu tertawa dan menjawab,

"Hari ini lumayan tenang,

selalu ada hal yang menarik di Agoda,

tapi yang lebih penting,

Ibu belajar hal baru tiap hari."

As mom tucked Maya in and gave her a kiss,

Maya drifted into a vivid dream.

She dreamed of being on the beach.

The same one she saw in the meeting room!

Some of mom's colleagues were there too,
enjoying chocolate ice cream.

And on the water, trolls and bugs
were surfing on the waves.

This was just Maya's first adventure into
her mom's world of software development,
and she hopes there would be many more to come.

Saat ibu menidurkan Maya dan menciumnya,
Maya merasa masuk ke dalam mimpi yang hidup.

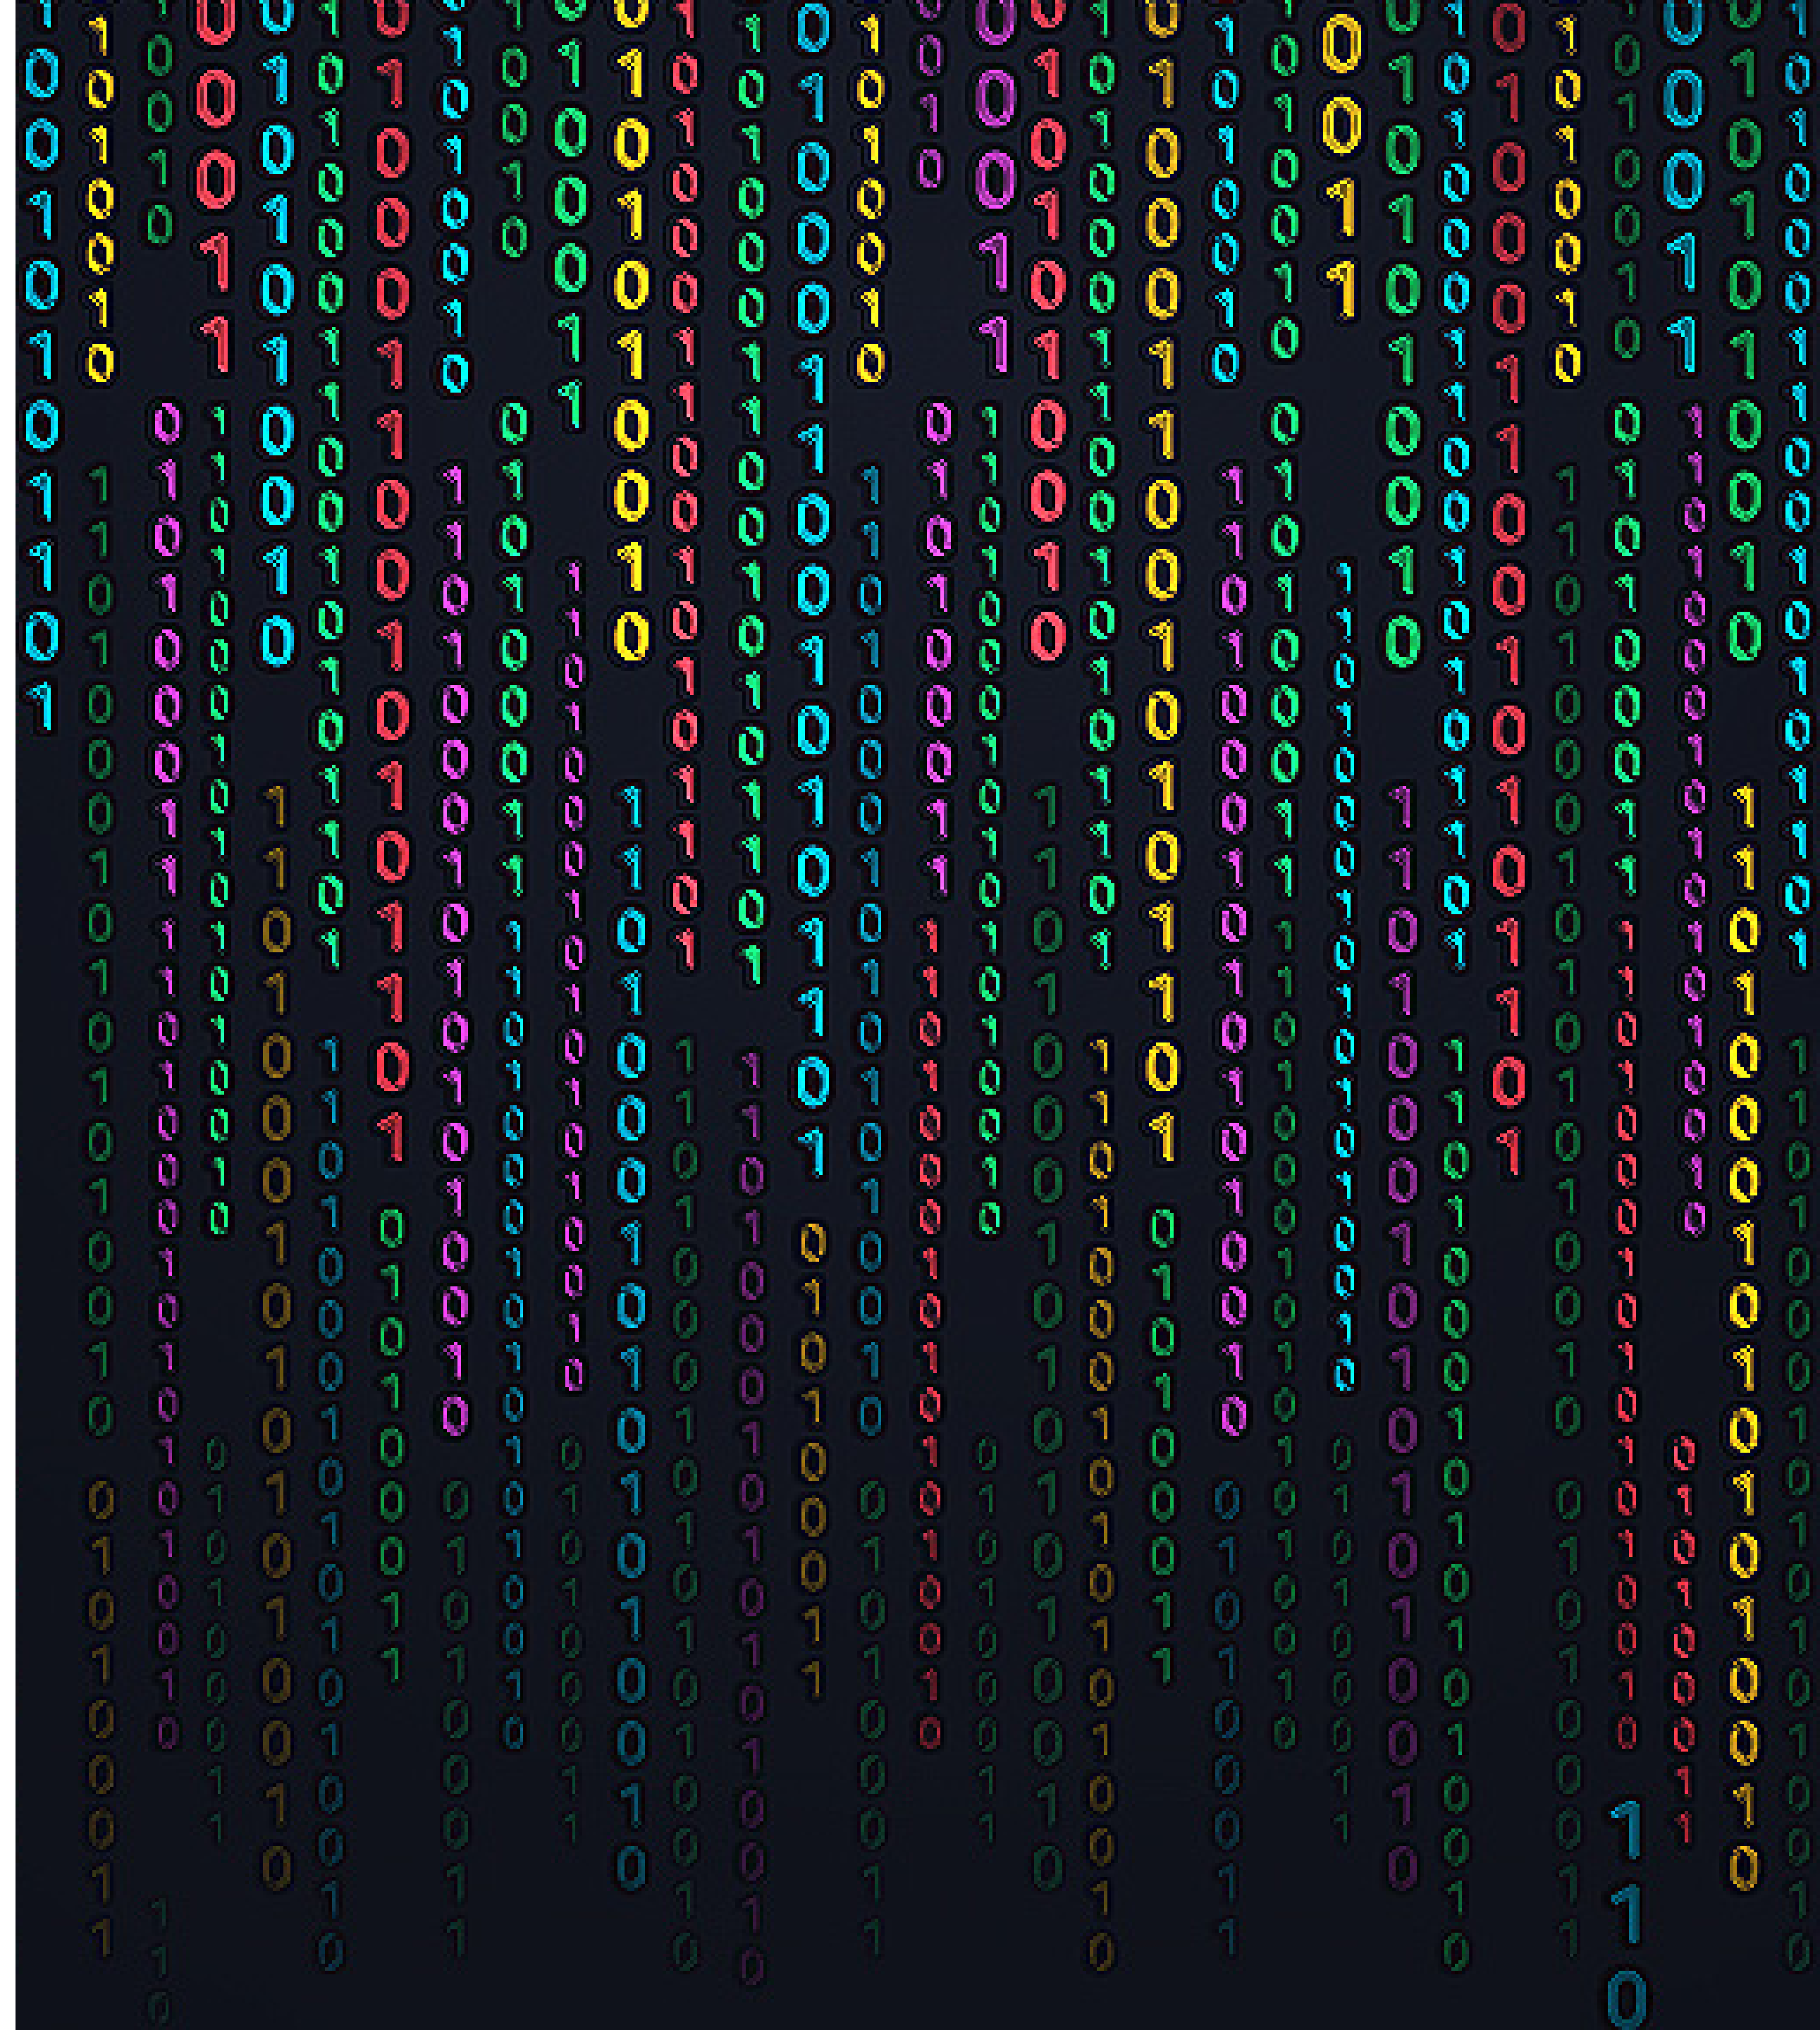

Dia bermimpi berada di pantai.

Pantai yang sama yang dia lihat di ruang rapat!

Beberapa rekan kerja ibunya juga ada di sana,
menikmati es krim coklat. Dan diatas air,

ada troll dan bug yang berterbangan ke sana kemari.

Ini adalah petualangan pertama Maya dalam
dunia pengembangan perangkat lunak ibunya,
dan ia berharap akan ada petualangan lainnya yang akan datang.
