

ChatGPT's Valentine's Day poem for

Bali

Bali, land of rice terraces
Where the sea meets the sand
Temples dot the countryside
A sacred, spiritual land

The beaches are a tropical paradise
With waves that gently roll
A place to find true serenity
And leave the world's woes a whole

The food is rich and flavorful
A blend of spices and heat
Where every bite is a journey
To an island so sweet

Bali, a treasure to discover
With beauty at every turn
A place to find true balance
And for your soul to yearn
