

ChatGPT's Valentine's Day poem for Singapore

Singapore, city of the future bright
A melting pot of cultures, what a sight
Skyscrapers tower, reaching for the sky
A bustling metropolis, never shy

The streets are lined with hawker delights
A foodie's paradise, day and night
From satay to laksa, so much to savor
A true taste of Singapore, a flavor

The Marina Bay Sands, a sight to see
A symbol of progress, for you and me
The Gardens by the Bay, a wonderland
A nature's beauty, so close at hand

So come and visit, take a stroll
Experience the beauty of Singapore whole
A city of the future, rich in culture
Singapore, a place that will forever capture.
